## About

---

Aspiring frontend developer passionate about creating responsive UIs with modern frameworks (React, Next.js). Aiming to contribute my problem-solving skills to innovative projects

## PROJECTS

---

### 1. Cat Facts Generator

- ✧ Created a web app that fetches random cat facts from a public API and displays them.
- ✧ Used React for the frontend, Tailwind CSS for styling, and Vite for fast development.

### 2. Contact Management System

- ✧ Built a system to Add, View, Edit, and Delete contacts (CRUD operations) using browser's local storage.
- ✧ Used React with TypeScript for type safety and CSS for styling.

### 3. College Fest Website - Dharohar

- ✧ Built complete fest portal with ticket booking, gallery, sponsors, FAQ/refund pages
- ✧ Implemented responsive UI with form validation and dynamic content loading
- ✧ Technologies: HTML, CSS, JavaScript

### 4. Parallax Effect Website

- ✧ Developed a single-page website with smooth scrolling and layered visual effects for an immersive experience
- ✧ Used plain HTML, CSS, and JavaScript (no frameworks).

## SKILLS

---

**Languages:** C, C++, Python, HTML, CSS, JavaScript, Typescript

**Database:** MySQL

**Tools:** Figma, Canva, VS Code, Adobe Lightroom, Github

**Technologies/Frameworks:** Next.js, Tailwind CSS, Git, Vite, Vercel, Canva, React

## EDUCATION

---

### ABES Engineering College

*Bachelor of Technology (GPA: 8.0)*

**Oct 2023 – Present**

*Ghaziabad, Uttar Pradesh*

### Kendriya Vidyalaya Sangathan (Intermediate)

*(Percentage: 87.4)*

**Lalitpur, Uttar Pradesh**

*2021-2022*

### Kendriya Vidyalaya Sangathan (High School)

*(Percentage: 86)*

**Lalitpur, Uttar Pradesh**

*2019-2020*

## ACHIEVEMENTS

---

- Successfully utilized modern web development technologies such as Tailwind CSS, Node.js, and Express.js to create dynamic, responsive applications.
- Consistently exhibited teamwork, initiative, and problem-solving skills across technical and design projects during academic tenure.
